

# Forsyth Barr Funds

## Global Growth Fund

### Fund update for quarter ending 30 June 2024

This fund update was first made publicly available on 26th July 2024

### What is the purpose of this update?

This document tells you how the Global Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Global Growth Fund aims to achieve positive long term returns by investing in an underlying fund which invests in international equities in companies that demonstrate a competitive advantage, achieve excess returns and reinvest these returns into business growth.

Total value of the fund	\$1,017,694
The date the fund started	15 May 2024

### What are the risks of investing?

Risk indicator<sup>1</sup> for Global Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler/](https://sorted.org.nz/tools/investor-profiler/).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?<sup>2</sup>

	PAST YEAR
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	20.34%

The market index return is based on the FTSE All-World Index in NZD (unhedged).

Additional information about the market index is available on the Forsyth Barr Funds' entry on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

## What fees are investors charged?

Investors in the Global Growth Fund are charged fund charges based on a percentage of the value of the investments in the fund. As at 30 June 2024 these are:<sup>3</sup>

	% OF NET ASSET VALUE <sup>4</sup>
<b>Total fund charges</b>	1.40%
<b>Which are made up of:</b>	
<b>Total management and administration charges</b>	1.40%
<b>Including</b>	
Manager's basic fee	0.85%
Other management and administration charges (estimated) <sup>5</sup>	0.55%
<b>Total performance-based fees</b>	0.00%
<b>Other Charges</b>	<b>Dollar amount per investor</b>
	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds), although no such fees currently apply. See the PDS for more information about fees. Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor<sup>6</sup>

Phoebe had \$10,000 in the fund since its inception on 15th May 2024 and did not make any further contributions. At the end of June 2024, Phoebe received a return after fund charges were deducted of \$251 (that is 2.51% of their initial \$10,000). This gives Phoebe a total return after tax of \$242 for the period.

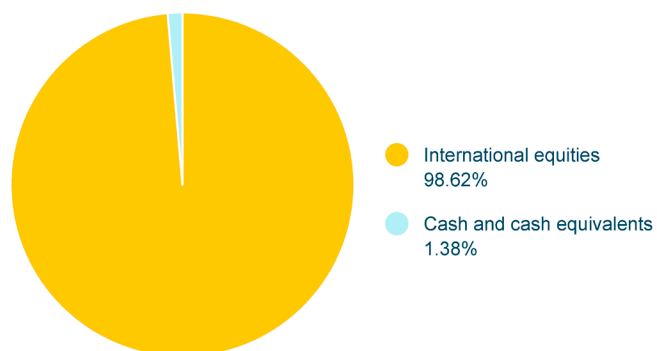

## What does the fund invest in?

This shows the types of assets that the fund invests in.

### Target investment mix

ASSET CLASS	ASSET CLASS TARGET ASSET MIX
Cash and cash equivalents	0.00%

## Further information

You can also obtain this information from the PDS for the Forsyth Barr Funds, and some additional information from the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

## Notes

1. This fund was launched on 15th May 2024. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns means that the risk indicators may provide a less reliable indicator of the potential future volatility of the funds. If a fund mainly invests into another fund with a higher risk indicator, we use that higher number.
2. Because the fund has not been in existence for a full year as at the relevant date, we have not included annual return figures. We have however included market index returns.
3. The fund has not been in existence for the whole of the most recent scheme year, so these are the fund charges that will be charged, rather than the fund charges that were charged in the most recent scheme year.
4. These charges are inclusive of GST.
5. These charges include the management fees of underlying funds where we are not the manager. In order to estimate these charges, we take into account the proportion of the Forsyth Barr Fund that is invested in the underlying fund. We also consider the public disclosures for the underlying fund about its management and administration charges. We have assumed that these will not change. We review all these estimates on an annual basis.
6. Please note that because the fund has not been in existence for a full year as at the relevant date, this example and the returns shown are for the period since inception, not annual figures.
